25X1A

1. I have read your rough draft of this contract and think that it is generally acceptable from a legal standpoint. As you will notice I have made some suggested changes in the wording. I believe it would be better in Article II to delete any reference to the telegram of 18 September which authorized commencement of the work, since [Redacted] now constitutes the whole agreement between CIA and the contractor. Article II might read as follows:

"The Contractor commenced the subject work on or about 18 September 1950, pursuant to authorization from the Government of that date, and shall proceed with subject work for a period of six months counting from 18 September 1950, or until such later date as may be authorized by the Contracting Officer and agreed to by the Contractor."

2. In paragraph E of Article I it seems likely that you mean also to include the reports under Objective II and not just those under Objective I.
